iPad and
iPhone
Compatible

3D Scanning Technology

Use for Scanning all types of Custom Insoles

SCAN PATIENTS FEET OR SCAN THE FOAM IMPRESSION BOX TO SAVE TIME AND MONEY!

How it works:

- Scan patients using integrated SoleScan 3D app on iPad or iPhone
- iPad or iPhone allows you to scan and order while in the exam room
- Capture a direct scan of the foot or scan the foam impression
- Order on the spot using the iPad/iPhone app or place your order later using the computer
- Track all orders from start to finish on the SoleScan Active Orders dashboard
- OrthoFeet footwear and insert orders ship bundled for your convenience

- ✓ TRANSPORTABLE
- ✓ AFFORDABLE
- ✓ EASY TO USE

Ask to see if you
qualify for a
complimentary iPad

The OrthoFeet Advantage

Our state of the art footwear technology combined with our passion for advanced foot biomechanics are fundamental aspects of our footwear design.

The innovative shoe construction along with the anatomical orthotic insoles have helped millions of people improve mobility, enhance comfort from heel to toe, and get relief of heel, foot, knee, and lower back pain.

Hands-Free Styles

- Easy On/Off, No Bending, No Tying
- Water Resistant & Easy to Clean
- Slip-Resistant
- Stretchable Uppers
- Seam-Free Protective Interior

Look for this icon to identify hands-free styles.

Arch Booster System

- This can be added under the orthotic insole
- Increases the support to the arch and reduces pressure at the heel and ball of the foot

Stretchable Uppers

Our stretchable upper design allows the upper to perfectly form to the contours of the foot.

- Offers an accommodative, customized fit
- Eliminates pressure points on the foot
- Eases pressure on Bunions and Hammertoes

Look for this icon to identify styles with stretchable uppers.

Tie-Less Lace System

Innovative lacing system that combines laces and straps on both sides of the shoe.

- Eliminates the need for lacing up
- Enables fastening and unfastening on both sides of the shoe
- Excellent solution for those who have difficulty tying laces

Look for this icon to identify styles with tie-less laces.

Flexible Depth

Our shoes allow for flexible depth to accommodate custom orthotics, pre-fabricated insoles, or no special insoles at all.

- Spacers provided with shoe allow for more secure fit if orthotics are not used
- Two pairs of spacers are included with shoes allowing for 1/8", 3/16" or 5/16" depth reduction
- Spacers offer accommodation of different size left and right feet

ABOUT US

OrthoFeet was established in 1984 by Ron Bar, PhD (Biomedical Engineer) and his brother Michael (Mechanical Engineer). In 2020, OrthoFeet added to its team, Josh White, DPM, CPed, an expert in diabetic and therapeutic footwear.

OrthoFeet's mission is to combine attractive footwear styling with innovative therapeutic features, to alleviate symptoms associated with common foot conditions, such as plantar fasciitis, bunions and arthritis.

OrthoFeet shoes are covered by Medicare for people with diabetes and are a favorite of podiatrists and other foot care practitioners because of their unique ways of customizing the fit and improving support.

OrthoFeet shoes improve mobility by addressing foot conditions and are a testament to the superior functionality that OrthoFeet has to offer.
