The OrthoFeet Advantage

Our state of the art footwear technology combined with our passion for advanced foot biomechanics are fundamental aspects of our footwear design.

The innovative shoe construction along with the anatomical orthotic insoles have helped millions of people improve mobility, enhance comfort from heel to toe, and get relief of heel, foot, knee, and lower back pain.

WHAT MAKES US UNIQUE:

Removable Insoles

Customize the space inside the shoe using the included spacers to achieve a perfect fit and prevent slippage. Two thicknesses offer multiple variations.

Protective interior

Soft & thick padded interior is also seam free, providing comfort and protection for sensitive feet such as neuropathy, diabetes and arthritis.

Ergonomic Cushioning

Our max cushion sole offers superior cushioning from the back of the heel to the tip of the toes.

Wide Toe Box

Unique wider than average toe box and multiple widths up to extra extra wide, offer plenty of room and a pressure free fit for the toes, including bunions, hammertoes, wide and swollen feet.

Arch Support That Works With You

Every pair of Orthofeet shoes are built with orthopedic-grade arch support, designed to ease pressure and encourage healthy alignment with every step.

PDAC Approved

All of the styles featured in this catalog meet the strict Medicare A5500 PDAC Requirements. This allows those who qualify to bill our shoes to insurance.

Flexible Uppers

Soft flexible materials contour to the foot shape and provide a pressure free fit. Ideal for bunions, hammertoes, swollen feet, and sensitive feet such as neuropathy, diabetes and arthritis.

Arch Booster

The OrthoFeet® Arch Booster improves alignment and controls flexibility. Optional arch booster provided for support.

Orthotic Insole

Our premium orthotic insole combines advanced multilayer cushioning with precise anatomical arch support to properly align your foot and reduce pressure on sensitive areas. The multi-density foam layers work together to cradle your foot while the contoured arch support maintains proper biomechanical alignment.

Fitting Spacers

Two spacers (1/16” and 1/8”) are included with every pair of OrthoFeet shoes. This allows one to customize the shoe’s interior space for a secure, comfortable fit on both feet.

Made with
ORTHO-CUSHION™
Technology
